Refereed Publications (150 out of 234 since 2007)

3) Measurements of $e p \rightarrow e' \pi^+ \pi^- p'$ cross sections with CLAS at $1.40 \text{GeV} < W < 2.0 \text{GeV}$ and $2.0 \text{GeV}^2 < Q^2 < 5.0 \text{GeV}^2$, E. L. Isupov et al. (The CLAS Collaboration), Phys. Rev. C 96 (2017) 025209, 1-19.

4) Photon beam asymmetry $\Sigma$ in the reaction $\gamma p \rightarrow p \omega$ for $E_\gamma = 1.152$ to 1.876 GeV, P. Collins et al. (The CLAS Collaboration), Phys. Lett. B 773 (2017) 112-120.

7) Photon beam asymmetry $\Sigma$ for $\eta$ and $\eta'$ photoproduction from the proton, P. Collins et al. (The CLAS Collaboration), Phys. Lett. B 770 (2017) 213–221.

10) Exclusive $\eta$ electroproduction at $W > 2 \text{GeV}$ with CLAS and transversity generalized parton distributions, I. Bedlinskiy et al. (The CLAS Collaboration), Phys. Rev. C 95 (2017) 035202, 1-16.

11) Target and beam-target spin asymmetries in exclusive pion electroproduction for $Q^2 > 1 \text{GeV}^2$. II. $ep \rightarrow e\pi^0 p$, P. E. Bosted et al. (The CLAS Collaboration), Phys. Rev. C 95 (2017) 035207, 1-12.

12) Target and beam-target spin asymmetries in exclusive pion electroproduction for $Q^2 > 1 \text{GeV}^2$. I. $ep \rightarrow e\pi^- n$, P. E. Bosted et al. (The CLAS Collaboration), Phys. Rev. C 95 (2017) 035206, 1-12.

14) Target and beam-target spin asymmetries in exclusive $\pi^-$ and $\pi^+$ electroproduction with 1.6- to 5.7-GeV electrons, P. E. Bosted et al. (The CLAS Collaboration), Phys. Rev. C 94 (2016) 055201, 1-25.

23) New results from the studies of the $N(1440)_{1/2}^+, \ N(1520)_{3/2}^-$ and $\Delta(1620)_{1/2}^-$ resonances in exclusive $ep \rightarrow e'p'\pi^\pm\pi^\mp$ electroproduction with the CLAS detector, V. I. Mokeev et al., Phys. Rev. C 93, 025206 (2016) 1-25.

27) Search for baryon-number and lepton-number violating decays of $\Lambda$ hyperons using the CLAS detector at Jefferson Laboratory, M.E. McCracken et al. (The CLAS Collaboration), Phys. Rev. D 92 (2015) 072002, 1-12.

77) Electromagnetic Decay of the $\Sigma^0(1385)$ to $\Lambda\gamma$, D. Keller et al. (The CLAS Collaboration), Phys. Rev. D 83, 072004 (2011) 1-14.

80) $\omega$ Meson Mass from the $\gamma + Nb \to \pi^0\gamma + X$ Reaction, M. Nanova et al. (The CBELSA/TAPS Collaboration), Phys. Rev. C 82, 035209 (2010) 1-10.

86) Differential Cross Sections and Recoil Polarizations for the Reaction $\gamma p \to K^+\Sigma^0$, B. Dey et al. (The CLAS Collaboration), Phys. Rev. C 82, 025202 (2010) 1-20.

90) Differential cross section of $\gamma n \to K^+\Sigma^0$ on bound neutron with incident photons from 1.1 to 3.6 GeV, S.A. Pereira et al. (The CLAS Collaboration), Phys. Lett. B 688 (2010) 289-293.

92) Evidence for a backward peak in the $\gamma d \rightarrow \pi^0 d$ cross section near the $\eta$ threshold, Y. Ilieva et al. (The CLAS Collaboration), Eur. Phys. J. A 43 (2010) 261-267.

95) Photoproduction of $\eta$ and $\eta'$ mesons off protons, V. Crede et al. (The CBELSA Collaboration), Phys. Rev. C 80 055202 (2009) 1-12.

96) Differential Cross Sections for the reactions $\gamma p \rightarrow p \eta$ and $\gamma p \rightarrow p \eta'$, M. Williams et al. (The CLAS Collaboration), Phys. Rev. C 80, 045213 (2009) 1-13.

97) Partial wave analysis of the reaction $\gamma p \rightarrow p \omega$ and the search for nucleon resonances, M. Williams et al. (The CLAS Collaboration), Phys. Rev. C 80, 065209 (2009) 1-18.

104) A measurement of the differential cross section for the reaction $\gamma n \rightarrow \pi^+ p$ from deuterium, W. Chen et al. (The CLAS Collaboration), Phys. Rev. Lett. 103, 012301 (2009) 1-6.

108) Electroproduction of $p\pi^-\pi^-$ off protons at $0.2 < Q^2 < 0.6$ GeV$^2$ and $1.3 < W < 1.57$ GeV with the CLAS detector, G. Fedotov et al. (The CLAS Collaboration), Phys. Rev. C 79, 015204 (2009) 1-23.

110) Search for the Photoexcitation of Exotic Mesons in the $\pi^+\pi^-\pi^0$ System, M. Nozar et al. (The CLAS Collaboration), Phys. Rev. Lett. 102, 102002 (2009) 1-6.

112) Moments of the Spin Structure Functions $g_1^p$ and $g_1^d$ for $0.05 < Q^2 < 3.0$ GeV$^2$, Y. Prok et al. (The CLAS Collaboration), Phys. Lett. B 672, (2009) 12-18.

115) Evidence for a Parity Doublet $\Delta(1920)P_{33}$ and $\Delta(1940)D_{33}$ from $\gamma p\rightarrow p\pi^0\eta$. I. Horn et al. (The CBELSA/TAPS Collaboration), Phys. Rev. Lett. 101, 202002 (2008) 1-5.

116) First measurement of target and double spin asymmetries for $e^+p\rightarrow e^\prime\pi^0$ in the nucleon resonance region above the $\Delta(1232)$. A. S. Biselli et al. (The CLAS Collaboration), Phys. Rev. C 78, 045204 (2008) 1-11.

120) Measurement of the beam asymmetry $\Sigma$ in $\pi\eta$; production off the proton with the CBELSA/TAPS experiment, E. Gutz et al. (The CBELSA/TAPS Collaboration), Eur. Phys. J. A 35 (2008) 292-293.

121) $K^0\pi^0$ and $K^0\Sigma^0$ photoproduction off the proton, M. Nanova et al. (The CBELSA/TAPS Collaboration), Eur. Phys. J. A 35 (2008) 173-186.

129) Measurement of $e^+p\rightarrow e\pi^0\eta$ Beam Spin Asymmetries above the Resonance Region, R. De Masi et al. (The CLAS Collaboration), Phys. Rev. C 77, 042201 (2008) 1-5.

131) Cross Sections and Beam Asymmetries for $e^+p\rightarrow e\pi^+$ in the Nucleon Resonance Region for $1.7<Q^2<4.5$ GeV$^2$, K. Park et al. (The CLAS Collaboration), Phys. Rev. C 77, 015208 (2008) 1-17.

134) $\Lambda^0$ and $\Delta^0$ Decays into $N\pi^0\eta$, U. Thoma et al. (The CBELSA Collaboration), Phys. Lett. B 659 (2007) 87-93.

138) $\pi^0$ Photoproduction on the Proton for Photon Energies from 0.675 to 2.875 GeV, M. Dugger et al. (The CLAS Collaboration), Phys. Rev. C 76, 025211 (2007) 1-16.
140) Cascade Production in the Reaction $\gamma p \rightarrow K^- K^{+}(X)$ and $\gamma p \rightarrow K^- K^{+} \pi^{0}(X)$, L. Guo et al. (The CLAS Collaboration), Phys. Rev. C 76, 025208 (2007) 1-11.
141) Cross Sections for the $\gamma p \rightarrow K^{*0} \Sigma^+ (X)$ Reaction at $E_{\gamma} = 1.7 - 3.0$ GeV, I. Hleiqawi et al. (The CLAS Collaboration), Phys. Rev. C 75, 042201(R) (2007) 1-6.
142) Cross Sections for the $\gamma p \rightarrow K^{*0} \Sigma^+ (X)$ Reaction at $E_{\gamma} = 1.7 - 3.0$ GeV, I. Hleiqawi et al. (The CLAS Collaboration), Erratum: Phys. Rev. C 76, 039905(E) (2007) 1.
146) Quark-Hadron Duality in Spin Structure Functions $g_1^p$ and $g_1^d$, P.E. Bosted et al. (The CLAS Collaboration), Phys. Rev. C 75, 035203 (2007) 1-7.
